Power Cord	5.9+2.3ft	5.9+2.3ft	5.9+2.3ft	5.9+2.3ft	5 .9+2.3ft	5.9+2.3ft

3. METHOD OF APPLICATION

A.Open the box and check whether the light and other accessories are included.If parts are missing,please get in touch with the seller's support email.

B.Expand both sides metal bracket fit to match the length of your aquarium.

C.Connect power supply with light,then plug in.Ensure a drip loop is created before the outlet,as shown on the warning.

Press the $(\textstyle{}^{\circlearrowleft}\!/_{M})$ button 2 seconds to turn on the light.Use one long-press of the same button

to turn off the light.(All light on,White/Red/Green/Pink,Blue light)

All mode lights,When you choose all light on mode,all the indicators will be off.You can adjust the brightness by press

the $(\textstyle{}^{\circlearrowleft}\!/_{M})$ button.

In white/Red/Green/Pink brightness.you can lick the $(\overset{\bullet}{W})$ button to choose this mode and click

the on/off button to control the White/Red/Green/Pink brightness.

eg: Click the $(\overset{\bullet}{W})$ button(W light indicator flashing) and click the $(\textstyle{}^{\circlearrowleft}\!/_{M})$button to adjust the brightness

(white/red/pink/green led beads)from 10 levels.

(10%-20%-30%-40%-50%-60%-70%-80%-90%-100%-90%-80%-70%-60%-50%-40%-30%-20%-10%)

(white/red/pink/green led beads light off)

Blue light,you can click $(\overset{\bullet}{B})$ the button to choose this mode and click the $(\textstyle{}^{\circlearrowleft}\!/_{M})$ button to control the blue brightness.

eg:click the $(\overset{\bullet}{B})$ button(B light indicator flashing) and click the $(\textstyle{}^{\circlearrowleft}\!/_{M})$ button to adjust the (blue led beads)

brightness from 10 levels.

10%-20%-30%-40%-50%-60%-70%-80%-90%-100%-90%-80%-70%-60%-50%-40%-30%-20%-10%(blue light off)

Please choose the color mode before choosing the timer.Otherwise,it will exit the timer function.

When you want to close the light(All light off).click the $(\textstyle{}^{\circlearrowleft}\!/_{M})$ button for 2 seconds.

Press the $(\textstyle\bigcirc)$ button to choose 6/10/12 hours,and the indicator light on the top of the timer button turns on.

For 6 hours,the "6H" indicator light flashes;for 10 hours,the "10H" indicator light flashes;for 12 hours,

the "12H" indicator light flashes.

eg:if you choose 6H at 9 AM,this light will auto turn on at 9:00AM and turn off at 3:00PM daily.

Once set up timer lighting mode,the next day,the light slowly ramps up in 15 minutes and down at last 15 minutes.

Once it is set,the light will auto-turn on and off simultaneously every day.

NOTE

1,This timer mode will be worked for 24 hours lighting cycle

2,When the power is cut off,the lamp will restart,calculating the previous timing.Such as,if it is timed for 6 hours,it will start

  counting again for 6 hours after the power is turned on.

3,Please remove the film before use.

## 5. PACKAGE INCLUDES:
  1 *Led Light   1*AC/DC power adaptor   2* Metal Brackets   1*User manual

⚠**6.WARNING:** To avoid possible electrical shock, do not immerse the switch in water. If the switch falls into the water, or otherwise becomes wet, do not touch it until you have unplugged it. Basic safety precautions should be observed including the following:

1. Read and follow this user manual strictly.

2. DANGER-To avoid possible electric shock, special care should be taken. For each of the following situations, do not attempt to repair yourself; return the light to an authorized service facility for service or discard the light.

   A. Carefully examine the light after installation. It should not be plugged in if there is water on parts not intended to be wet.

   B. Do not operate the light if it has a damaged cord or plug, if it is malfunctioning or if it is dropped or damaged in any manner. The power cord of this light cannot be replaced, if the cord is damaged, the light should be discarded.

   C. To avoid the possibility of the light plug getting wet, position the aquarium stand and tank to one side of a wall-mounted receptacle to prevent water from dripping onto the receptacle or plug. A "drip loop",shown in the figure below, should be arranged by the user for each cord connecting the light to the receptacle.

   The "drip loop" is the part of the cord below the level of the receptacle or the connector. If an extension cord is used, to prevent water from traveling along the cord and coming in contact with the receptacle.

   If the plug or receptacle does get wet, DO NOT unplug the cord.

   Disconnect the fuse to the circuit breaker that supplies power to the light. Then unplug and examine for the presence of water in the receptacle.

3. Close supervision is necessary when the light is used near children.

4. To avoid injury, do not touch moving or hot parts.

5. Make sure the light is securely installed before operating it.

6. Read and observe ali the important notices on the light.

7. If an extension cord is necessary, a cord with a proper rating should be used.

  Acord rated for less amperes or watts than the appliance rating may overheat.

Care should be taken to arrange the cord so that it will not be tripped over or pulled.

8. The light is intended FOR HOUSEHOLD USE ONLY.

9. SAVE THIS USER MANUAL
