STEP 4- Set local time

1.

Long press the **CLOCK** "12H" will begin flashing, the "12H" flash in the screen.

Then press **UP** or **DOWN** button select either a 12H or 24H time display, press **CLOCK** to save it.

2.

Hold the **CLOCK** until you see "12H" flashes, then press once **CLOCK** you will see the hour number flash, then press **UP** or **DOWN** to set the local time.

Press **CLOCK** the minute number will flash, then press **UP** or **DOWN** to set the minute. Press once **CLOCK** button to save.

NOTE.

It will display "PM" on the screen when you choose "12H" time.

remote LED light controller features two timer functions:

1. DAY-L/MOON-L mode for running a gradual sunrise, daylight, sunset, and moonlight programmed around a daily ON/OFF time.
2. DIY mode for playing a custom scene with 8 sections ON/OFF time, selected light color and brightness.
3. Weather mode for stimulating sunrise, sunset, cloudy, lightning storm, you can wish to view any on-demand dynamic mode.

1

DAY-L/MOON-L mode

1. DAY-L setting

- ① Press the TIMER button once
"DAY-L ON" will begin flashing.

- ② Long press the TIMER button again to enter into edit mode.
The "DAY-L ON" of hours number will flash, press UP or DOWN to set the hour start time. Then press the TIMER button once, the "DAY-L ON" of minute number will flash, press UP or DOWN to set the minute time.

③ Press the **TIMER** button to save the daylight start time, and the

brightness will flash, press     **WRGB** button to set each light color's brightness.

Tips

When you press     the corresponding color(W,R,G,B) flashes on the brightness interface.

④ Press the **TIMER** button once to save the brightness, and enter into set daylight off time, the screen will read "DAY-L OFF" flash. Then press the **TIMER** button to save, and the minute number will flash, press **UP** or **DOWN** to set the minute time.

⑤ Press the **TIMER** button to save the daylight off time.

Tips

- 1 DAY-L ON means the time of light turn on in the daytime.
- 2 DAY-L OFF means the time of light turn off in the daytime
- 2 When the time of DAY-L ON and the time of DAY-L OFF is the same, the screen display DAY-L OFF.

2. MOON-L setting

To modify the moonlight ON and OFF time of the Standard timer, follow the next steps:

- ① Press the **TIMER** button twice the "MOON-L ON" will start flashing.

- ② Long press the **TIMER** button again to enter into edit mode. The "MOON-L ON" of hours number will flash, press **UP** or **DOWN** to set the hour start time. Then press the **TIMER** button once, the "MOON-L ON" of minute number will flash, press **UP** or **DOWN** to set the minute time.

- ③ Press the **TIMER** button to save the moonlight start time, and the

brightness will flash, press

WRGB button

to set each light color's brightness.

Tips

When you press

the corresponding color(W,R,G,B)

flashes on the brightness interface.

- ④ Press the **TIMER** button once to save the brightness, and enter into set moonlight off time, the screen will read "MOON-L OFF" flash. Then press the **TIMER** button to save, and the minute number will flash, press **UP** or **DOWN** to set the minute time.

- ⑤ Press the **TIMER** button to save the moonlight off time.

ATTENTION

All four LED's colors (white, red, green, blue) are adjustable in intensity in steps from 0 to 25%, you can control the light intensity from very dim to extremely bright. 0% means no light. 25% brightness of every single color is the most bright of each light. It depends on how you arrange light color and brightness.

For example, you prefer 17% white and 10% blue light, then you can see 27% brightness at the display, and W for white, B for blue.

Press     all these button until the brightness display,

W R G B disappear. Then press

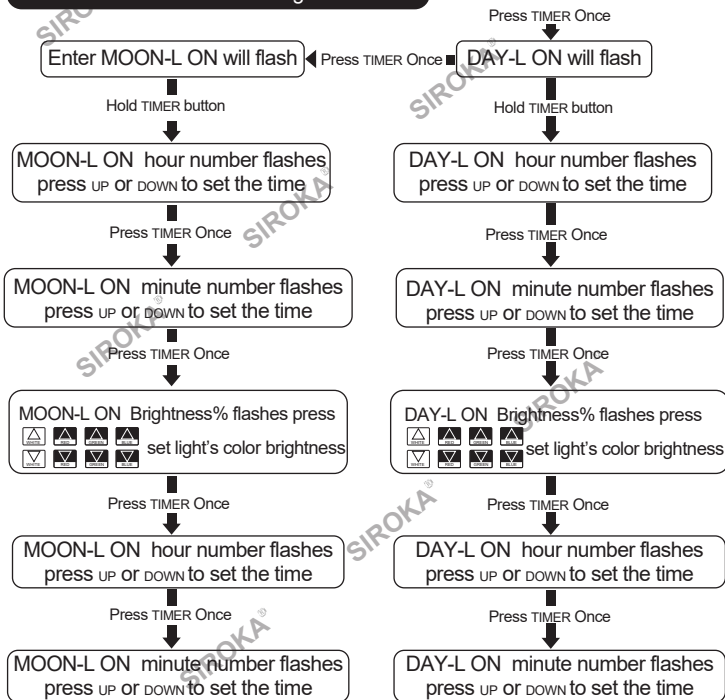

to 17% brightness. Press

to 27% brightness.

DAY-L/MOON-L Mode Setting Flow Chart

3.DAY-L MODE & MOON-L MODE Default Program

Daylight ON:06:30am

Daylight OFF:18:00(06:00pm)

Color Spectrum :W 25%,R 25%,G 25%,B 25%.**The intensity of lighting from 0% slowly ramps up in 15 minutes until 100% full spectrum.**

Moonlight ON:18:00(06:00pm)

Moonlight OFF:23:30(11:30pm)

Color Spectrum:B 25%.**The intensity of lighting from 0% faint blue light slowly ramps up in 15 minutes until 25% full blue.**

Note: There is no need to set when selecting the Default Mode, just to set local time after out of the box and plugged in.

2

DIY mode

1.DIY setting

- ① Press and hold **DIY** until "DIY" flashing, then press **UP** or **DOWN** to turn on/off DIY mode. Press **DIY** once to enter setting.

- ② After turned on DIY mode, you can see L1 displays on LCD screen, hour of L1 ON flash, you can press UP or DOWN to adjust hour of L1 ON. Press DIY again, minute of L1 flash, you can press UP or DOWN to adjust minute of L1 ON time.

- ③ Press DIY again, hour of L1 OFF time flash, you can press UP or DOWN to adjust hour of L1 OFF time, press DIY again, minute of L1 flash, you can press UP or DOWN to adjust minute of L1 OFF time.

- ④ Then press DIY, Brightness flashing

you can press

to increase or decrease the
brightness of four colors.

- ⑤ Press **DIY** to set L2, L2 ON time is the L1 OFF time, and so on for L3-L7, so you just need to set L2 OFF time, the hour of L2 OFF time flash, you can press **UP** or **DOWN** to adjust hour of L2 OFF time, press **DIY**, the minute of L2 OFF time flash, you can press **UP** or **DOWN** to adjust minute of L2 OFF time.

- ⑥ Then press **DIY**, Brightness flashing

to increase or decrease the brightness of four colors. Repeat the flow above to set L3-L7.

- ⑦ And so on to finish setting L7. The start time of L8 is the end time of L7, and the end time of L8 is one minute before the start time of L1, please note that L1-L8 must be set for the whole 24 hours in DIY mode.

2.DIY Mode Default Program

L1	6:30-8:00	Color Spectrum:WRG 15%,sunrise
L2	8:00-10:00	Color Spectrum:WRGB 60%
L3	10:00-15:00	Color Spectrum:WRGB 100%
L4	15:00-17:00	Color Spectrum:WRGB 60%
L5	17:00-18:30	Color Spectrum:W2%,R10%,G3%,B0%,sunset
L6	18:30-20:30	Color Spectrum:B 25%

4. Maintenance

For maximum LED performance, it is recommended that the fixture be cleaned on a weekly basis. Unplug transformer prior to cleaning the light fixture and remove from aquarium. Wipe exposed surfaces carefully with a damp cloth to remove any dust or mineral deposits that may collect over time. Do not use detergents or harsh cleaners as it can damage the light fixture.

5. Troubleshooting

- Light stopped working, please check the remote control batteries. Replace it if it is run out of battery. If still not working, please contact us to get a new power supply. Maybe the power supply damaged.
- Light is not response to remote, unplug the light, take out the battery on the remote. Then put it back and plug in light, press on/off button to match with light.

PS: The step of taking out the battery would restore factory setting. You have to reset the light again.

Memory Function

If power failure, the light turns on at 100% full spectrum once restore. Then the light will revert back to the previous mode within one hour.

Restore Factory Default Settings

Take out the battery, you need to manually unplug the power adapter to turn off the light, reinstall the battery and reset the aprogram.

6.IMPORTANT SAFETY INSTRUCTIONS

Warning: To guard against injury, basic safety precautions should be observed, including the following:

READ AND FOLLOW ALL SAFETY INSTRUCTIONS

- ① .You should read all the important notices on the appliance before using. Failure to do so may result in loss of fish life or damage to this appliance.
- ② .Danger: to avoid possible electric shock, special care should be taken since water is employed in the use of aquarium equipment. For each of the following situations, do not attempt to repair by yourself. Return the appliance to an authorized service facility for service or discard the appliance.
 - Carefully examine the appliance after installation. Do not operate any appliance if it has a damaged cord or plug, or if it is malfunctioning or it is dropped or damaged in any manner. The power cord of this appliance cannot be replaced. If the cord is damaged, the appliance should be discarded. Never cut the cord.
 - To avoid the possibility of the appliance plug or receptacle to one side of a wall mounted receptacle to prevent water from dripping on to thereceptacle or plug. A "drip loop" (see illustration) should be arranged by the user for the cord connecting appliance to a receptacle. The drip

loop is that part of the cord below the level of the receptacle or the connector if an extension cord is used to prevent water travelling along the cord and coming in contact with the receptacle. If the plug or receptacle does get wet, do not unplug the cord. Disconnect the fuse or circuit breaker that supplies power to the appliance. Then unplug and examine for presence of water in receptacle.

- ③. This appliance is not intended for use by persons (including children) with significantly impaired physical or mental capabilities, unless they have been given supervision or instruction concerning the use of the appliance by a person responsible for their safety. Children should always be supervised to ensure that they do not play with the appliance.

- ④. To avoid injury, do not touch moving parts or hot parts.
- ⑤. CAUTION—Always unplug or disconnect all appliances in the aquarium from electricity supply before placing hands in water, before putting on or taking off parts and while the equipment is being installed, maintained or handled. Never yank cord to pull plug from outlet. Grasp the plug and pull to disconnect. Always unplug an appliance from an outlet when not in use.
- ⑥. Do not install or store the appliance where it will be exposed to weather or temperatures below freezing. For indoor household use only. Do not immerse.
- ⑦. Make sure the appliance is mounted correctly and securely positioned on the aquarium before operating the appliance.
- ⑧. If an extension cord is necessary, a cord with proper rating should be used. A cord rated for less amperes or watts than the appliance rating may overheat. Care should be taken to arrange the cord so that it will not be tripped over or pulled. The connection should be carried out by a qualified electrical installer.
- ⑨. The socket-outlet shall be installed near the equipment and shall be easily accessible.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radiofrequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Caution:

- Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.
- This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance of 8 inches (20cm) between the radiator & your body.

8. One Year Limited Warranty

This product MUST be purchased from an authorized reseller. Visit our website for a list of unauthorized resellers. Warrants this product against defects in materials and workmanship for ONE (1) YEAR from the date of original retail purchase and is non-transferable. Warranty on all Products, including Aquariums, is limited to replacement of the product and does not cover fish loss, personal injury, property loss or direct, incidental or consequential damage arising from the use of this product.

Note : One-year Limited Warranty does not cover damage caused by the following : improper installation , saltwater corrosion , electrical surges , or modifications.

If you discover a defect, please contact who will, at its option, repair or replace the product at no charge to you, provided you return it during the warranty period. A copy of the bill of sale is required as proof of original purchase date in the event the product needs repairs within the warranty period. does not warrant any products that are not

This warranty does not apply if the product has been damaged by accident , abuse , misuse or misapplication or if the product has been modified without the written permission of.

9. DISPOSAL

Do not dispose this product as unsorted municipal waste. Collection of such waste separately for special treatment is necessary. This product must not be disposed together with the domestic waste. This product has to be disposed at an authorized place for recycling of electrical and electronic appliances. By collecting and recycling waste, you help save natural resources, and make sure the product is disposed in an environmental friendly and healthy way.

Thank you for Choosing SIROKA Aquarium Light
Making aquarium keeping easier one product at a time

If you have any problems or suggestions for our this Aquarium Light, please contact us by email before leaving feedback or opening a case, as it will be the fastest way to solve your problem. If you are satisfied with our products, please leave positive feedback in order to let more customers enjoy it. Thank you again!
